

1. Product and Company Information

Product code + name: 840050, sLE latex kit
Product description: A qualitative or semi-quantitative latex test for the identification of Anti-DNP. The test reagent consists of latex particles coated with DNP extracted from foetal calf thymus.
Supplier/Manufacturer: Lorne Laboratories Ltd
Address: Unit 1 Cutbush Park Industrial Estate
Danehill
Lower Earley
Berkshire RG6 4UT
United Kingdom
Phone number: +44(0) 0118 921 2264
Fax number: +44(0) 0118 986 4518
e-mail address: info@lornelabs.com
Web-site address: www.lornelabs.com

2. Composition/Information on the components

Contains no hazardous substances in reportable quantities.

Component name	Concentration	R phrases	Classification
Sodium azide	<0.1%	R28, R32, R50/53	Poisonous

3. Hazard Identification

Main Hazards: This product must be classified according to directive 2001/58/EC as **non-hazardous**.

4. First Aid measures

Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes, lifting the upper and lower eyelids. Seek immediate medical advice.
Skin Contact: Wash the contacted area with soap and water. Remove contaminated clothing and shoes. Get medical aid if irritation develops or persists.
Ingestion: If victim is conscious and alert, wash out mouth with water. Get medical aid.
Inhalation: Remove from exposure and move to fresh air immediately. If breathing is difficult, get medical aid.

5. Fire Fighting measures

Extinguishing Media: Not flammable. Use media to suit the surroundings.
Unsuitable Extinguishing Media: Not applicable. Subject to surroundings.
Special hazards of product: Not known.
Protective fire fighting equipment: None required.

6. Accidental release measures

Personal Precautions Spillage: Wear rubber gloves and protective clothing.
Spillages: Contain liquid with paper towels, which should subsequently be incinerated. Disinfect site of spillage.
Environmental precautions: Try to prevent the material from entering drains or water courses.

7. Handling and Storage

Handling: Wear rubber gloves, safety glasses and protective clothing.
Storage: Storage temperature should be controlled to between 2 and 8°C. Store in the original container securely closed. Keep away from foodstuffs.

8. Exposure Controls / Personal Protection

Respiratory Protection: Good local ventilation.
Hand Protection: Wear suitable gloves, e.g. latex or plastic gloves.
Eye Protection: Safety glasses.

9. Physical and Chemical properties

Physical State: Liquid.
Colour: LE latex reagent (yellow label): White suspension.
LE negative control (blue label): Clear, straw coloured.
LE positive control (red label): Clear, straw coloured.
Odour: LE latex reagent (yellow label): Odourless.
LE negative control (blue label): Odourless.
LE positive control (red label): Odourless.
pH: LE latex reagent (yellow label): 7.0.
LE negative control (blue label): 7.0.
LE positive control (red label): 7.0.
Flash Point (°C): Not applicable for all 3 reagents.
Solubility in water (kg/m³): Very soluble for all 3 reagents.
Vapour Pressure (kPa): Not applicable for all 3 reagents.
Density (kg/m³): Not applicable for all 3 reagents.
Viscosity: Not applicable for all 3 reagents.
Decomposition Temperature (°C): Not applicable for all 3 reagents.

10. Stability and Reactivity

Chemical Stability: Stable under normal temperatures and pressures.
Materials to avoid: Not known when used appropriately.
Hazardous decomposition products: Not known.
Hygiene measures: Wash hands before breaks and after work. Do not eat, drink or smoke in the workplace.

11. Toxicological Information

Acute Toxicity: Under normal circumstances and use, these products are unlikely to be acutely toxic.

MATERIAL SAFETY DATA SHEET

sLE latex kit

Skin sensitisation: Under normal circumstances and use, these products are unlikely to sensitise skin.

12. Ecological Information

Mobility: The products are freely miscible with water.
Persistence/Degradability: Some of the ingredients are expected to be resistant to biodegradation.
Bio-accumulation: Not very likely.

13. Disposal

Product Disposal: This material will be classified as 'biological waste' under the COPA (Special Waste) Regulations 1980 and must be disposed of in accordance with those regulations.

Container Disposal: Empty containers may contain hazardous residues. Containers shall be disposed of by incineration as soon as possible.

14. Transport information

UN Number: None assigned.
UN Proper Shipping Name: Not applicable.
ADR/RID – Class: Non Hazardous.
IMDG – Packaging Group: Not applicable.
IMDG – Class: Non Hazardous.
IATA Packaging Group: Not applicable.
IATA – Class: Non Hazardous.

15. Labelling Information

R phrases: None.
S phrases: None.

16. Other Information

MSDS first issued: Not applicable
MSDS data revised: 07 October 2014
Uses and restrictions: Customers are urged to ensure that the product is entirely suitable for their own purpose. It is the customers' responsibility to ensure that a suitable and sufficient assessment of the risks created by the use of the product is undertaken. The use of the reagent and the interpretation of results must be carried out by properly trained and qualified personnel in accordance with the requirements of the country where the reagent is in use
This product is intended for *in vitro* diagnostic use only
Not for use in humans
UK Legislation: Health and Safety at Work etc Act, 1974, and relevant Statutory Provisions
SI 1993/1746: Chemicals (Hazard Information and Packaging) Regulations, 1993
SI 1988/1657: The Control of Substances Hazardous to Health Regulation
